

Oficial Pod Outdoor Camping Rules:

Flatulence Whilst Camping

(to be posted in easily visible location like a tree or near the beer or something)

1. Farting in tents is strictly forbidden when sharing with another person.
2. Farting in someone else's tent and quietly sneaking away is a crime subject to punishment by river dunking.
3. Farting in a tent and saying "hey, come check this out" is funny as many times as it works, but it must stop after people catch on.
4. You may only blame the noise on an animal a maximum of three times. It loses its charm after that.
5. Do not light your farts when camping in a burn-free zone.
6. Do not try to light your farts on the communal campfire.
7. Do not try to light your farts in a tent.
8. Anyone prone to diarrhea may not participate in fart jokes.
9. In the event that a pet is sleeping in a tent with other people and starts stinking up the joint, the owner must be willing to put that ugly thing outside for the night.
10. All forms of farting are allowed when sitting in your own chair around the campfire.
11. If something else comes out, the offending party must do the awkward side scoot to change their clothes before any more damage can be done to other campers.
12. When someone exhibits tonal technique they are owed a round of applause.
13. While hiking, you must warn the person directly behind you.
14. All rules are subject to change if mom is there.
